EXPERIENCE

Software Developer Intern · Nomadis

Mar 2026 – Present

- QA and test automation — building on previous work to extend Selenium test coverage and improve overall software quality.

Software Developer Intern · Nomadis

May 2025 – Jul 2025

- Designed and automated 20+ Selenium test scripts for a production web platform, reducing recurring bugs and stabilizing test coverage.
- Reviewed peers' code to ensure quality standards and collaborated with developers in Agile sprints.

PROJECTS

Les Petites Puces · React · ASP.NET Core · SQL

School Project

424r.cgodin.qc.ca

- Full-stack e-commerce marketplace (team of 4) — vendor management, product catalog, shopping cart, and Quebec LESI payment integration.

Microblog · React Native · Flask · WebSocket

School Project

github.com/Zacab90/Microblog

- Real-time social app with JWT auth, image posts, follow/like/comment system, and live push notifications via WebSocket.

Panthos · HTML/CSS/JS · Mailchimp · Netlify

Client Project

panthos.ca

- Designed and built a product launch landing page for a protein sauce brand — Mailchimp waitlist integration, deployed to production on Netlify.

Crisis Protocol & Magasin · Unity · C#

Game Jams

zacab90.itch.io/crisis-protocol · zacab90.itch.io/magasin

- Two 48-hour intercollege game jam entries — a space survival game and a horror escape game, each with custom AI, physics, and level design.

ProjectPZ · Unity · C#

In Progress

- Solo cyberpunk parkour FPS — wall-running, vaulting, climbing, melee combat, and enemy AI state machines.

SKILLS

Languages: C#, Java, PHP, SQL, HTML, JavaScript, CSS

Frameworks: React, React Native, ASP.NET Core, Flask, Bootstrap

Game Dev: Unity · C# · AI State Machines · Level Design

Tools: Git / GitHub / GitLab · Selenium · VS Code · Netlify

Concepts: REST APIs · MVC · OOP · WebSocket · JWT · Agile

Other: QA Testing · Debugging · Database Design · Linux

EDUCATION

DEC — Techniques de l'informatique · Cégep Gérard-Godin

Aug 2022 – May 2026

- Advanced coursework in database design, software testing, web development, OOP, and systems — hands-on team and solo projects throughout.

High School Diploma · École Secondaire Félix-Leclerc

2017 – 2022

LANGUAGES

French (Native) **English** (Professional)
